TECH SKILLS

LANGUAGES

JavaScript, Ruby, HTML, SCSS, CSS, SQL

FRAMEWORKS

React, Express, Rails, Bootstrap

PLATFORMS

Node.js

LIBRARIES

EJS, React Router

DATABASES

PostgreSQL

TESTING

Mocha, Chai, Cypress, Vitest, Playwright

TOOLS

Vite, Git, GitHub, Command Line, Responsive Design, Form Validation, UI/UX

APIS

REST APIs, WebSockets, SendGrid

SOFT SKILLS

Strategic Thinking, Problem Solving, Accountability, Communication, Reliability, Leadership, Mentorship

HOBBIES

Board Games, Basketball, Cooking, Snowboarding, Hiking, Biking, 3D Printing, Reading

SUMMARY

Junior Full-Stack Developer building production-ready web applications with JavaScript, React, Node.js, and PostgreSQL. Experienced in designing responsive UIs, developing RESTful APIs, and implementing real-time features using WebSockets. Focused on clean architecture, intuitive user experience, and application reliability through unit and end-to-end testing (Vitest, Playwright). Background as a BC Wildfire Crew Supervisor brings strong leadership, communication, and decision-making in high-pressure environments.

PROJECTS

Web Dev Resume V2 — Interactive Resume & Portfolio (LIVE | GITHUB | VIDEO)

React, Vite, React Router, CSS, Vitest, Playwright

- Rebuilt the app as a second-generation resume with clearer information architecture and UX focused on recruiter scanability
- Raised production confidence by adding unit and end-to-end coverage across critical user journeys
- Improved maintainability by refining persistence, theming architecture, and modular content organization

KTSpeedrun — Kill Team Companion App (LIVE | GITHUB)

React, Vite, React Router, Node.js, WebSocket, Redis, Vitest, Playwright

- Built a guided multi-step flow across setup, roster, and in-game phases
- Implemented realtime multiplayer with room codes, host/MAP roles, and WebSocket sync
- Shipped unit and e2e Playwright tests for board interactions and multiplayer flows

Across The Creek Organics — Seed Potato Catalog & Order Request (LIVE | GITHUB)

React, Vite, React Router, SendGrid, CSS

- Built a responsive catalog with product pages, galleries, and structured data
- Implemented a cart-style request flow with quantities and confirmations
- Created secure serverless contact/order endpoints with validation

EXPERIENCE

BC Wildfire Service — Crew Supervisor

2023 - 2025

- Supervised five Initial Attack crews across two bases, ensuring safety, readiness, and performance
- Designed and implemented a custom crew-tracking system to optimize deployment and resource allocation
- Mentored and trained new leaders through structured coaching programs to enhance team performance and cohesion
- Coordinated emergency logistics and personnel movements during high-pressure wildfire incidents

BC Wildfire Service — Crew Leader

2021 - 2023

- Led wildfire suppression operations in rapidly changing environments
- Managed on-the-ground coordination and communication during deployments
- Facilitated clear communication between crews, command centers, and the public during interface emergencies

BC Wildfire Service — Crew Member

2018 - 2021

- Supported wildfire suppression operations in rapidly changing environments
- Executed field tasks with a focus on safety, speed, and team coordination
- Adapted to shifting priorities during interface emergencies

EDUCATION

Lighthouse Labs

Full-Stack Web Development Bootcamp | March 2025

- Completed an intensive 12-week full-stack program focused on modern web development
- Built multiple full-stack applications using React, Node.js, Express, and PostgreSQL
- Developed RESTful APIs, dynamic front-end interfaces, and database-driven features
- Applied testing practices including unit, integration, and end-to-end testing (Mocha, Chai, Cypress)
- Worked with Git-based workflows for version control and collaborative development
- Emphasized responsive design, clean code practices, and maintainable architecture

Simon Fraser University

BASc, Engineering Science (Incomplete) | 2015 - 2017

- Completed coursework in physics, calculus, systems design, and programming
